## WORK EXPERIENCE

### FullStack Developer | *Aug 2025 – Present*

**Velox Labs, Kathmandu**

Working as a Full Stack Developer, developing and maintaining web applications using PHP, Laravel, Next.js, and TypeScript. Responsible for building REST APIs, developing responsive user interfaces, managing databases, and ensuring application performance and scalability.

### FullStack Developer | *Dec 2024 – Jun 2025*

**Global Studio, Kathmandu**

Worked on payment integrations and Docker-based development workflows while implementing the repository pattern to maintain clean,modular, and maintainable application architecture. Optimized database performance using Eloquent relationships, eager loading, indexing, and query caching to improve application efficiency and scalability.

### Laravel Developer | *Feb 2023 – Aug 2024*

**KTM Rush Pvt. Ltd., Kathmandu**

Developed various web applications, including CMS platforms, eCommerce websites, accounting systems, travel booking platforms, and job portals. Built RESTful APIs and implemented queue jobs for background processing while leveraging Laravel features and modular application architecture to develop scalable, efficient, and maintainable systems.

### Laravel Developer Intern | *Aug 2022 – Dec 2022*

**EkBana Pvt. Ltd., Kathmandu**

Gained hands-on experience with Laravel routing, MVC architecture, and project structure while following maintainable coding practices. Developed practical debugging and performance optimization skills while setting up, managing, and working on real-world Laravel projects.
